CYLINDRICONE

Cylindricone KOB is a launching pneumatic system of rescue parachute for paramotor and small trike.

KOB suitable for maximum total weight (aircraft plus aircrew) 220 Kg

Maximum airspeed (at deployment) 130 Km/h

Outside Diameter in **CARBON FIBER** = 152 mm

Weight about 3,5 – 5,0 Kg

Three sizes: Small – Medium – Big

Total length of small size 35 cm	PD30 suitable for 115Kg	Price 1.200 Euros
Total length of medium size 40 cm	PD37 suitable for 160Kg	Price 1.300 Euros
Total length of big sizes 45 cm	PD45 suitable for 220Kg	Price 1.450 Euros

CYLINDRICONE

Cylindricone MID is a launching pneumatic system of rescue parachute for paramotor and small trike

MID suitable for maximum total weight (aircraft plus aircrew) 220 Kg

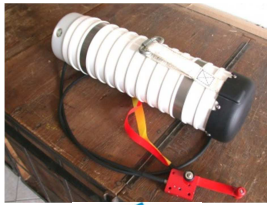

Maximum airspeed (at deployment) 130 Km/h

Outside Diameter in **PVC**= 160 mm

Weight about 4,0 - 5,5 Kg

Three sizes: Small – Medium – Big

Total length of small size 35 cm	PD30 suitable for 115Kg	Price 1.020 Euros
Total length of medium size 40 cm	PD37 suitable for 160Kg	Price 1.120 Euros
Total length of big sizes 45 cm	PD45 suitable for 220Kg	Price 1.270 Euros

CYLINDRON

Cylindron CHA is a launching pneumatic system of rescue parachute for aircraft.

CHA suitable for maximum total weight (aircraft plus aircrew) 475Kg

Maximum airspeed (at deployment) 130 Km/h

Weight about 8,5 - 12Kg

Total length 45 cm suitable for 280Kg in **CARBON FIBRE** Ready in the near future

Total length 49 cm suitable for 340Kg	Price 1.900 Euros Ready in the near future
Total length 59 cm suitable for 410Kg	Price 2.050 Euros
Total length 59 cm suitable for 475Kg	Price 2.215 Euros
